

Autumn Vacation Programme 2018

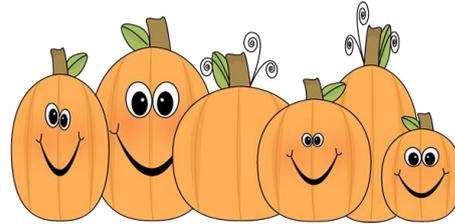

Dear Parents,

Please find below details of our two-week Autumn Vacation Programme for 2018. Parents may apply for one or both of the weeks. Exciting activities have been organised and the ELA Teaching Assistants are looking forward to leading the programme.

Week 1

October 1st- 5th

Harvest Week

- This week's programme will include two outings to explore the beautiful surroundings of Basel during peak harvest time.
- Our first visit is to the Mathis-Hof corn maze in Bottmingen where the children will take part in the maze.
- Children will have the opportunity to choose a pumpkin to decorate with special paints, glitter, and sequins.
- We will visit the sculpture path in Reinach, Basel-Land.
- There will be plenty of arts and crafts to explore all the themes that go along with harvest time, including potato stamp jack-o-lanterns.
- We will bake and decorate our own Halloween muffins and create autumn placemats.
- We will also be making soda bread and pumpkin soup to end our harvest celebration in a delicious way!

Week 2

October 8th - 12th

Awesome Autumn

- Children will be exploring parks in and around Basel, going on nature scavenger hunts, and creating autumn art and crafts outside.
- We will be making homemade pizza with a variety of toppings, and even baking autumn cookies and treats.
- We will be creating leaf prints, colourful paintings, and slimy pumpkins with water paint.
- Children will have the chance to try toasted pumpkin seeds, create their own afternoon snack, and yummy autumn sweets.
- We will end the week with a dress up day, where children can attend wearing their favorite costume and can have their face painted!
- On Tuesday we have a very special outing to a jumping class where the children will learn amazing dance and jumping moves to their favourite songs. It is very important that on this day the children bring a water bottle, an extra pair of indoor sports shoes and a backpack to carry it all in, as well as appropriate gear for the weather.
